REASONS FOR ALLOWANCE

1. Claims 1-2, 4-10, 12-18 and 20-24 are allowed.
2. The following is an examiner's statements of reason for allowance:

The examiner has found that the prior art of record does not appear to teach or suggest or render obvious the claimed limitations in combination with the specific added limitations as recited in independent claims and subsequent dependent claims. The prior art of record fails to teach or suggest a method and system for managing a shared memory in a switch comprising a plurality of reserved pools of buffers in the shared memory wherein each reserved pool of buffers is associated with one of the plurality of egress ports and is reserved for storing data to be forwarded through that egress port. The shared memory also includes a shared pool of buffers for storing data to be forwarded through any of the plurality of egress ports and a multicast pool of buffers reserved for only storing IP Multicast packets received on any ingress port. By providing "a multicast pool of buffers in the shared memory reserved for only storing IP Multicast packets received on any ingress port" even if one congested egress port is using all of its reserved buffers and all available buffers in the shared pool of buffers in the shared memory, buffers are available from the multicast pool for storing a received IP Multicast packet. The buffers in the multicast pool of buffers are reserved for only storing IP Multicast packets as argued by applicant [see Remarks of Amendment filed on August 24, 2005].

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
